BRACG'S ARTIC LINIMENT. "HIS great specific, which is a triumph in the progres I of medical science of the nineteenth century, is not presented to a public free from pain, suffering and disease. It was not discovered, nor is it now prepared for those possersed of sound health and robust constitution, but for a large class who are suffering pain.

Have you the Branchilla! Have you the New algia! Have you the Ear or Tooth Ache! You may rid yourself entirely of these distressing evils by the use of Brage's Arctic L'alment. Are you afflicted with oid Sores? Are you suffering from severe Bruisse? Are you endering pain from Sprains?

One bo the of the Arotic Liniment will surely give relief Rheumatism is a dreadful complaint. Screfula is a loath-ome disease. Yet such is the wooderful heating properties of Bragg' arctic Lintment, that it will almost instantly cure acuts and chronic Rheumatism, and remove Scrottla.
Why will you suffer with Scurrey?

Why will you suffer with the Piles! Why will you submitted Childhans?

When by using the Arctic Liniment you may find permanent relief.

There are in this world thousands and tens of thousands who are, year after year, suffering with one or mare of the many diseases with which humanity is afflicted, intil dis pairing and righ unto the grave. Wounds, bruises, burns oald head, chilblains, piles, corns, warts, bltes of insects sore eyes, tooth ache, ear ache, neuraigin, sore throat, paralisis, diseases of the Skin, tumors, wens, ring worms, urvey, coke in the breast, sore lips, stiffness in the joints heumalism, gout, Ac., have fastened upon them, and the poor sufferencers seeking an antidote.
To all such, Dr. Brigg's Arotic Liniment comes as a sure and speedy remedy, it is a nahm for every wound, and it neve fails! Hundreds and thousands are testing its virtues, and are rejoic ng it freedom from pain and suffering. FARMERS AND BORSE HATSERS.

Dr. Bragg's Arctic Laument is also a sovereign remedy or the various discuses, with which borses are affected oring the most alarming cases of bruises, sprains, spring halt, wounds, scraches, sweeney, spavin, ring bone, big-head, poll evil, etc. No farmer, livery stable keepers or any person owning valuable home, should be without it. ITS PREPARATION. The ingredients of the Arctic Livement are of the most

costly kind while the atmost care is be to sed upon com-counding them by one of the members of the com any who makes a personal examination of every bottle put NO FAMILY SHOULD HE WITHOUT IT. In case of accident, it is wise to have a remedy at hand

to apply instantly. Many lives are thereby saved, when if left to the plod ling time of a medical practitioner must have been lost. The Arctic Limment is the best specific as it acts upon the parts affected instanty.

It is put up in 25c., 0: and \$1 bottles. The 50c and It is put up in 25c. Or and \$1 bottles. The 50c and \$1 bottles contain 50 and 100 pr. et more Liniment than the 25c bottles, and are nuch rheaper.

Every person buying a \$1 bottle of Bracq's Agoric inxinant will be furnished at Dr. Bracg's expense, with Emerson's United States Journal, published in New York for one year by thing at the certificate arount, each Dollar bottle, and sending it to J. M. Emmson & Co., No. 371 Broadway, New York.

THE GREATEST INVENTION OF THE AGE, West's Patent Galvanic Cement

be of there, we have then by the land and which LEGISLATURES OF THINKERS.

For Roofing. THE subscriber is now prepared to cover roofs of buildings, with a new and better article that ever before nown. The public are aware that our Government ha had dientific men experimenting, and that it has been the study of A chilects and Builders, for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be impersions to fire and water, and remain a permanent fixture. As yet, nothing has been attained without conting wore than the people with. The contraction, expansion and rusting of meta roofs, are so great in changeable climates, that they be Time useic s, unless being repaired at great expense yearly. Thingles are not fire proof, and cannot be used on flat riofs, and the various Compositions and Computs that have been brought into use for roofing, do not stand the action of the weather, but they ran when it is warm, and cruck when frosty, and after one or two years become crumby, and worthless; whereas, the inventor of the Gal-vanic Cement, has labored twenty years to combine articles to obviate those difficulties, and can testify from his org experience, and numerous to timonials from reliable persons, who have had his combination applied to their buildings, that his Cement is the cheapest and best at eler-ever before known. The combination of this Cement is such

that it is calculated for entire new roofs, that or s'eep, covering over old thingles without removing them; lining exvertoughts, scaming around bandements, chimneys and sky-lights. Covering cartoose, steamer-decks, ac. This Cement, by its non-conduction and galvanism, prevents metal roofs from rusting and unroldering, and resists the extremes of heat and cold, better than any thing ever in-vented, for entire roofs or for covering metal and the out side of wood buildings, making them fire proof. Its appearance is like state; beautiful for the rich palice or the The undersigned having secured the right to the State of ennessee, will sell rights of Territory, by Counties or The Subscriber la also prepared to cover roofs of buildings, in any part of the State, at hort notice.

This Roof is now being put on in this city, for the bene fit of all concerned, and warranted to excel all other modes of Roofing. The subscriber has and his mode of Roof-ing tested as to its qualities, during the last year and a haif in the city of Mamphis, which has proved saxis sectory, to which a number of the nost prominent citizens can For further information enquire at he office, where samples may be seen. ARCHITECTS AND BUILDERS should not fall to

szamine this Rooting, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every ctimate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmos phere, and will neither evaporate, crack nor rot, and, as to its duishilly, there is no question. It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good sheathing, old shingles, tar and gravel, tin, sinc, copper, or fron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will give better satisfaction It will also be found to be the best thing gver invented to over or mend old leaky tin, tar and gravel roofs, or around himpeys, scuttles, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhetion to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two dellars and fifty cents per hundred square feet, which is cheaper and much bet-ter than paint. This Roofing will be found to be the best theng for covering large Roofs where they are exposed to Ar -auch as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint a it, it presents no chance for fire to communicate, and any ight substance will burn out without igniting.

Thaurance Offices at Glodinnati, and other places shere Childs & Co.'s Cement has been used, insure Build-pgs with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Tin.
The Coment will be furnished to those at a distance with directions for using.

Orders sent to the undersigned, through the Postmee, will be promptly attended to I would respectfully refer to the following gentlemen for whom I have covered buildings with the cement. ARCHITECTS AND MASTER MECHANICS OF MASSVILLE, Mr. H. M. AKEROYD. Mal. A. HEIMAN. Mourr. J. A. HUGHES & SMITH.
